Reasons For Allowance

- * The Examiner has considered the Applicant's IDS of 10/30/03.
- * Pursuant to 35 USC 131, **Claims 1-10** are presented for examination.

1. **Claims 1-10** are allowable over the prior art.

1.1 The following is an Examiner's statement of reasons for the indication of allowable subject matter: the prior art is exemplified by (US Patent No. 5815635) to **Seoh**.

Seoh discloses, e.g., in FIG. 4, a high-definition television video processor along with error detection and correction capability comprising an input unit arranged to input encoded image data, wherein a code train of said encoded image data includes a marker code/signal for a resynchronizing process within one picture; an error detector/corrector unit arranged to detect/correct a code error in the encoded image data via Reed-Solomon/interleaving algorithms.

However, Seoh does not teach or suggest the combination of claim elements wherein error correction discriminates whether or not to execute an *error correction process utilizing marker code according to an attribute of the encoded image data* as described in **Claims 1-10**.

1.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
